A single brioche row is worked in two passes, one in light color (LC) and the other in dark color (DC). Both colors are worked in one direction, then the work is turned and both colors are worked in the other direction. The light side (LS) of the project is first worked in light color (LC) yarn, then in dark color (DC) yarn. The LS of the work is where brk stitches are worked in light color (LC) yarn.
